CascadeMD

CLINICAL DOCUMENTATION REIMAGINED.

PRODUCT & TECHNOLOGY
OVERVIEW

CascadeMD reduces the administrative burden associated with clinical documentation so providers can focus more time on patients.

About Us

Clinical Documentation Reimagined!
Using our mobile and web apps,
a healthcare provider can dictate the entire patient
encounter on their device of choice including
tablets and mobile phones.

Our state of the art nautral language voice-to-text
and AI inferencing engine will capture relevant data
and populate your EMR of choice requiring little to
no manual transcription or data entry. Experience an
increase in revenues by reducing time spent on
administrative tasks.

PRACTICES

Less time spent on
administration means more
time for patients.

PROVIDERS

Reduce time spent on manual
data entry. Focus on patient
care.

**Transcription Service
Providers**

Reduce costs by streamlining
the process and reduce manual
intervention

Our Features

Our powerful dictation and transcription product has been built and designed to ensure the highest level of accuracy while being able to effectively streamline your documentation, data entry and administration processes. Let CascadeMD handle the documentation and data entry burden so you can focus on what matters, Patient Care.

Dictation Capture

Record dictations from any tablet or mobile device. Using our intuitive mobile app you can create, save and submit all of your dictations.

Speech Recognition

Accurate and efficient voice-to-text conversion.

AI Powered Inference

Our powerful AI understands and interprets your dictation to populate your EMR with no manual data entry required.
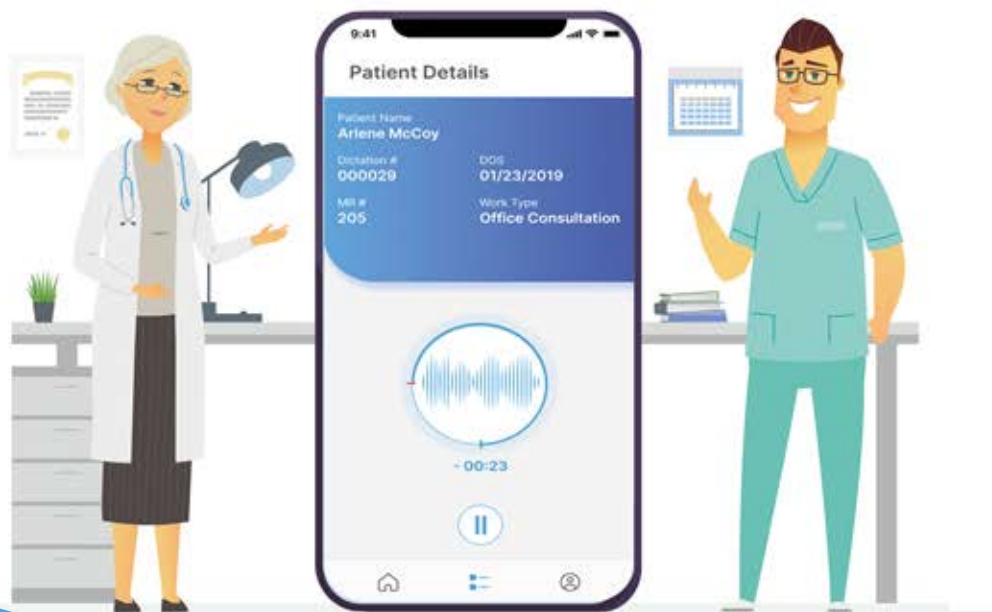

Structured Dictation Formatting

Create your own dictation template for structured forms, notes and data.
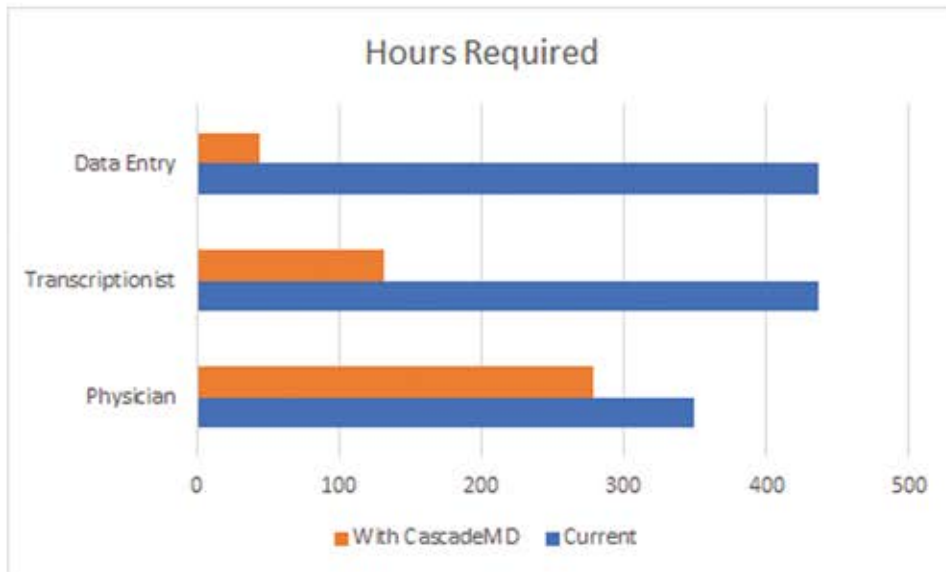

Custom Keyword Triggers

Speed up your dictations by creating custom keyword triggers that can populate data or phrases into your transcription.
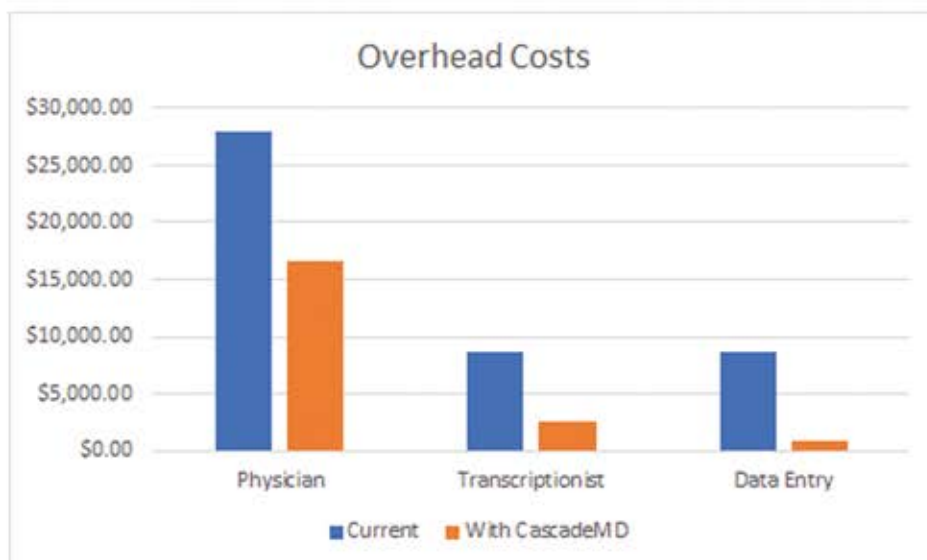

Our Benefits

Documentation is necessary but takes too much time. Often completed at end-of-day, this can require overtime hours in an industry already suffering from burnout. CascadeMD can drastically reduce documentation time effectively reducing overhead costs and freeing up more time to focus on patient care.

Comparison: 1 Physician, 10 dictations per day, 8 minutes per dictation

Hours Required

63% Reduction
(Hours Required)

Total Hours Saved with CascadeMD: 770.03

Overhead Costs

55% Reduction
(Overhead Costs)

Overhead costs reduced by: $25,241

Integration

As a PointClickCare Integration partner, CascadeMD's AI and inferencing technology is seemlessly connected to your faciilities PointClickCare environment. Resident records can be automatically updated from your dictation with no manual entry required.

Create Progress Notes

Your dictation will automatically create a progress and/or practitioner note.

Vitals

Dictate vitals during rounds and have the resident record update automatically.

Customizable Workflows

External Physicians or clinics can dictate and once submitted the information can be instantly back at your facility for processing based on your customized worflow for dictation processing.

Rapid Implementation

As a PointClickCare Integration Partner we can have your facility up in running in days, not weeks or months.

Customized data mapping

Create your own data mapping and keyword triggers giving you the ability to have the information from your dictation go where you need it in your PointClickCare resident record.

Preferred Pricing

Preferred pricing for PointClickCare facilities and additional discounts for multiple facilities
